

Démarche de soins infirmiers à l'attention des députés et sénateurs français !

Diagnostic infirmier relatif aux députés : Conflit décisionnel relié à un manque de connaissances sur les intérêts à disposer d'un Ordre infirmier se manifestant pas l'incapacité à prendre les bonnes décisions une fois assis dans un hémicycle la nuit

Sources de difficultés : une minorité de personnes principalement en lien avec des syndicats faisant preuve d'un activisme outrancier nocif pour la profession se traduisant par un comportement non confraternel déontologiquement inacceptable

Ressources : une équipe de salariés et d'élus qui a fait de la nouvelle gouvernance une chance pour l'ordre en tant qu'institution, pour les infirmières et infirmiers en tant que profession, pour les citoyens en tant que population soignée et en risque de l'être

Interventions proposées :

Objectif prioritaire : clarification des valeurs républicaines par de l'apport de connaissances

Préalable : Faire valider le contrat de soins par des séances d'information utilisant les NTIC, mais aussi les bonnes vieilles méthodes type Fax et courrier postal

Dont acte...

***Nota** : les infirmières étant les championnes de la suppléance et de l'accompagnement de la dépendance, nous avons pensé utile de compenser votre altération de la perception visuelle en lien avec la non satisfaction de votre besoin fondamental N°10 !*
